4 Courses

Vector Databases: An Introduction with Chroma DB

Vector Search with NoSQL Databases using MongoDB & Cassandra

Vector Search with Relational Databases using PostgreSQL

Vector Database Projects: AI Recommendation Systems

Feb 3, 2026

Abhigya Shridhar

has successfully completed the online Specialization

Vector Database Fundamentals

By completing this specialization, the learner has demonstrated data management skills using vector databases. The learner can distinguish between vector and traditional databases, set up environments, index, and optimize vector databases. The learner has the skills to store, index, and query vectors efficiently and conduct vector searches in Chroma DB, MongoDB, Cassandra, and PostgreSQL. The learner can apply vector database skills, including vector search skills, to real-world applications such as text similarity analysis and recommendation systems.
